PREFACE

Starting in the first quarter of 2020, we experienced that the virus named Covid-19, which was declared as a pandemic by WHO could change our habits in a short time. The time we spent at home in order to be protected from the virus has increased significantly; we have tried to compensate for our habits in our daily routine with the processes we manage from our home. So much so that we chose not to stay behind from life through remote participation in a wide range from sporting activities to educational activities. We have experienced that technology can play a role in changing our habitual behavior for a long time. We also followed the decisions of the world's leading companies to offer their employees the option of working from home in the post-epidemic process. While this is the case, because we put the technology at the indispensable level of our daily life in the pre-epidemic period, we can say that this process will be open to new habits after this process.

We can see that Virtual Reality, which has been known as a technical and philosophical concept for many years, not only as a product but also as a concept, has gained prominence in this period when alternative methods and ideas have increased, and it can be used more effectively in educational activities. The fact that full immersive virtual reality systems provide full immersion with full immersive sound and high graphic quality, as well as the opportunity to truly feel in 3D environments where the users are located, brings academic studies towards its usability in education.

This book is produced from a doctoral dissertation titled “Research of the Effectiveness of Virtual Reality Technology in Basic Technical Skill Learning: The Example of Table Tennis” and gives information on the use of virtual reality in education, as well as general information about virtual reality.

Dr. Naci KALKAN

CONTENTS

Preface.....	iii
1. CHAPTER	
Introduction	1
2. CHAPTER	
Virtual Reality	5
2.1. Concept of Virtual Reality.....	5
2.2. Historical Development of Virtual Reality	7
2.3. Virtual Reality System.....	19
2.3.1. Classification of Virtual Reality Systems	20
2.3.1.1. Fully-Immersive Systems.....	20
2.3.1.1.1. HTC VIVE	21
2.3.1.2. Semi-Immersive Systems.....	22
2.3.1.3. Non-Immersive Systems.....	23
2.3.1.4. Virtual Reality Headsets	24
2.3.1.4.1. Head-Mounted Display Headsets (HMD)	
24	
2.3.1.4.2. Mobile Based Virtual Reality	25
2.4. Virtual Reality and Learning	26
2.4.1. Advantages of Virtual Reality in Education.....	31
2.4.1.5. Realism.....	31
2.4.1.6. Entertainment	31
2.4.1.7. Motivation.....	32
2.4.1.8. Effectiveness.....	32
2.4.1.9. Practicality.....	33
2.4.1.10. Opportunity to Repeat.....	33
2.4.1.11. Instructive	34
2.4.1.12. Time	35

2.4.1.13. Variation.....	35
2.4.1.14. Experience	36
2.4.1.15. Place.....	36
2.5. Virtual Reality and Physical Activity.....	37
2.6. Studies on Virtual Reality	40
2.7. Virtual Reality and Learning Theories.....	45
2.8. Virtual Reality and Constructivism	46
2.9. Instructional Design.....	48
2.9.1. Instructional Design Models.....	49
2.9.1.1. Dick and Carey Model	50
2.9.1.2. Hannafin and Peck Model	51
2.9.1.3. Knirk and Gustafson Model.....	52
2.9.1.4. Jerrold Kemp Model.....	53
2.9.1.5. Gerleach and Ely Model	54
2.9.1.6. Rapid Prototype Model.....	55
2.9.1.7. Romiszowski Model.....	55
2.9.1.8. Syracuse Model.....	56
2.9.1.9. Diamond Model	57
2.9.1.10. Gagne, Briggs and Wager Model.....	57
2.9.2. Virtual Reality and Instructional Design Models .	58
2.9.2.1. Chen's Model	59
2.9.2.2. Hanson and Shelton's Model	60
2.9.2.3. Goodwin et al. Instructional Design Model.	61
2.9.2.4. Instructional Design Model of Salzman.....	62
2.9.2.5. Lee and Dalgarno's 3D Virtual Learning Environment Model	63
2.9.3. Instructional Design Conducted in the titled ‘Research of the Effectiveness of Virtual Reality Technology in Basic Technical Skill Learning: The Example of Table Tennis’ Doctoral Dissertation.....	64
References.....	67
