PREFACE

Based in Ankara in Turkey, the independent academic publisher, *Akademis-yen Publishing House*, has been publishing books for almost 30 years. As the directors of *Akademis-yen Publishing House*, we are proud to publish around 1500 books across disciplines so far, especially in Health Sciences. We also publish books in Social Sciences, Educational Sciences, Physical Sciences, and also books on cultural and artistic topics.

Akademis-yen Publishing House has recently commenced the process of publishing books in the international arena with the “**Scientific Research Book**” series in Turkish and English. The publication process of the books, which is expected to take place in March and September every year, will continue with thematic subtitles across disciplines

The books, which are considered as permanent documents of scientific and intellectual studies, are the witnesses of hundreds of years as an information recording platform. As *Akademis-yen Publishing House*, we are strongly committed to working with a professional team. We understand the expectations of the authors, and we tailor our publishing services to meet their needs. We promise each author for the widest distribution of the books that we publish.

We thank all of the authors with whom we collaborated to publish their books across disciplines.

Akademis-yen Publishing House Inc.
