## ÖNSÖZ

Bu kitap yazdığım doktora tezimin sadece belirli erişim kaynakları ile ulaşılmasının önüne geçmeyi hedeflemektedir. Yaklaşık bir sene boyunca çocuk ve ergen ruh sağlığı polikliniğine başvuran yüzlerce aile ile yaptığım bireysel görüşmeler sonucunda topladığım bilgilerle ortaya koyduğum bu bilimsel eser, sadece bu alanda çalışan uzmanlara ışık olsun istemedim. Bunun yanı sıra çocuk sahibi olan ve/veya olmayı düşünen, bunu düşünmese bile özellikle çocuk yetiştirme konusunda bilgi sahibi olmak isteyen yetişkinlerin de okuyacağı ve yararlanacağı bir kaynak olsun ümidiyle kitaplaştırmaya karar verdim.

Bu bilimsel çalışmayı tamamlamam gerçekten bir hayli zamanımı aldı. Çalışmak istediğim hedef kitleye ulaşmakta zorlandığım, aylarca polikliniğe başvuran ailelerin peşinden koştuğum dönemlerim oldu. Klinikte veri toplamanın bütün zorluklarına rağmen pes etmeyerek çalışmak, bilimsel anlamda yeni bulgular ortaya koymamı sağladı. Bunun yanı sıra bu çalışma sayesinde öğrendiklerim ailelerle yaptığım görüşmelerin yönünü çok değiştirdi. İşte bu yüzden ilk olarak çalışmaya katılan çocuklara ve ailelerine, veri toplamamda yardımcı olan çocuk sağlığı ve hastalıkları uzmanı arkadaşlarıma ve son olarak eşime ve aileme teşekkürü bir borç bilirim. Tatlı kızım Pelin Doğa'm sen henüz bu çalışma yapılırken dünyada değildin ama annelik maceramda bana eşlik ettiğin, bu kitaplardaki bilgileri, seninle geçirdiğim gündelik yaşamda kullanma fırsatı verdiğin ve annelik becerilerimi geliştirdiğin için sana da teşekkür ederim.
