ESTETİK AÇIDAN DOĞUM ORTAMI

Feyza AKTAŞ REYHAN¹, İmran Ülkü ALEV GÖKGÖZ²

*‘Güzelliğin iyileştirici bir gücü vardır.’
Claude Monet*

GİRİŞ

Doğum, kadınların hayatlarında unutamayacakları ve derinden etkilenecekleri önemli bir olaydır. Doğal, biyolojik ve içgüdüsel bir süreç olmasına rağmen, her zaman bazı risklerle bağlantılıdır. Bu nedenle, memeli anneler içgüdüsel olarak güvenli, korunaklı ve özel bir ortamda doğum yapmayı tercih ederler. Doğum yapan bir kadının, komplikasyon risklerini en aza indiren yüksek kaliteli bakıma ve hormonal sisteminin en iyi şekilde çalışabilmesi için tanındık, sakin, güvenli ve emniyetli bir ortama ihtiyacı vardır (1,2). Bu tür bir ortam, kadının fizyolojik ve sağlıklı bir doğum deneyimi yaşamasına yardımcı olur, doğum sürecini kolaylaştırır ve kadının kendi doğumu üzerinde otonomi sahibi olmasını destekler (3). Doğum ortamı, sadece fiziksel bir mekân olmanın ötesinde, kadınların duygusal ve psikolojik ihtiyaçlarını da karşılayan bir alandır. Estetik unsurlar, doğum ortamının tasarımında kritik bir rol oynar. Renkler, aydınlatma, mobilya düzeni ve dekoratif öğeler, kadınların güven duygusunu artırarak stres ve kaygıyı azaltır. Böyle bir ortam, doğum sürecinin daha doğal ve destekleyici bir şekilde ilerlemesine katkıda bulunur (4)

¹ Dr. Öğr. Üyesi, Kütahya Sağlık Bilimleri Üniversitesi, Sağlık Bilimleri Fakültesi, Ebelik Bölümü, feyza.aktasreyhan@ksbu.edu.tr, ORCID iD: 0000-0002-7927-2361

suz duyguları minimize eder. Bu da gereksiz tıbbi müdahalelerin azalmasına, sezaryen oranlarının düşmesine ve anne-bebek ile toplum sağlığının korunmasına katkıda bulunur. Sonuç olarak, doğum ortamlarının estetik tasarımı, sadece fiziksel bir mekân düzenlemesi değil, aynı zamanda kadınların doğum deneyimlerini iyileştiren ve sağlık sonuçlarını olumlu yönde etkileyen bir unsurdur.
